ORGANIZATION NAME

Organization Street Address
Organization City, State Zip
Phone Number
Website

What We Do:

Our organization is what kind of organization/agency that is located in what city and serves what kind of people in what places. We utilize what kind of strategies to do what kind of work. Our primary focus is what. This section should have details about what you do in the community. The font should be Cambria and 11 point. If you'd like to use the part below to bullet what you concentrate your efforts on, definitely do!

We concentrate our efforts on

- this really is an awesome strategy;
- this strategy is really awesome, too; and
- this is the last strategy to highlight.

Who Is Involved:

Our organization works with a wide range of organizational and individual community partners who provide support, advocacy and leadership to the strategies we implement. These partners represent the diversity of where and include the organizations such as this one, this one and this one. Highlight those partners or connections that are really important or politically smart to mention. Only leave the sentences and information here that is important to you and your organizations. Font should be Cambria 11. Individual partners with whom we work represent a variety of sectors including business, civic, education, faith, parks and recreation, healthcare, government, law enforcement, media, non-profit, youth and parents.

How We Know It Works:

Here's where you want to put some statistics to note success you've seen in your community. For example, you may want to share that the percentage of high school youth who indicated that they have used alcohol in the last 30 days **decreased** from whatever percentage in 2010 to whatever percentage in 2014. You can also explain that data by saying something like this: This means that **4 out of 5** high school students in Gwinnett County **choose NOT to drink**. You can add a couple of stats here if you have them; keeping it to one page and in the same Cambria, 11 point font. Also add graphics of some sort and feel free to bold important parts.

Commented [O1]: YOUR logo should go on the LEFT. You should leave the V4P logo in the document.

If you have a more horizontal logo, you may adapt.

The organization name and address should be in Cambria. Name should be size 24, bold. The rest should be 16, regular.

Commented [O2]: These boxes should not be edited and should have these same labels in the same font as provided.

Commented [BN3]: Please insert YOUR own graphics that reflect YOUR outcomes or focus.
